Company Bio

Marcus and Abby Andrusko founded The Grass Fed Cattle Company on the philosophy that healthy eating and buying local is right. The Grass Fed Cattle Co. was conceived in December 2007, and launched in February 2009. The goal was to create a cooperative of local farmers that specialize in raising free range, 100% grass fed cattle with no added hormones or antibiotics and connect the farmers to individuals and families desiring a natural, healthy, local and affordable beef product. The Grass Fed Cattle Co. simplifies the process of buying high quality grass fed beef directly from farmers.

It is a privilege to offer this product! We bring local, healthy and delicious beef to people in the Twin Cities.

Marcus & Abby Andrusko

Owners Marcus and Abby Andrusko's desire for providing people with a healthy beef alternative, while supporting local family farms began when they were preparing food for the non-profit wilderness camp, Boundary Waters Experience, which they direct. Finding quality beef to serve their staff presented a challenge.

Due to price breaks for buying in large quantities, they purchased cheap beef from a large box retailer. They found the beef tasted poorly, had a gristly texture and looked off in color. Abby and Marcus decided it was time to look for a healthier beef option for their family and camp. To their surprise, their research revealed many local farms did not raise cattle on pasture as they had imagined. Instead many local herds were confined, raised on grains and pumped full of hormones for quick weight gain allowing them to go to market quickly.

This experience led to the creation of The Grass Fed Cattle Co., a company that is committed to raising healthy local beef naturally, while creating relationships between family farmers and consumers. In addition, the company works diligently to offer their beef at a great value. These days you can find 100% grass fed beef on the Andrusko's dining room table, and in the woods at their camp. Serving this beef is a privilege. The Andrusko's now get to bring the gift of health to their family, friends, camp and others in the Twin Cities' who care about their health.
